The screenshot shows a Java Swing application window titled "Biodata". The window has a light gray background and a standard Windows-style title bar. On the left side, there is a form with several input fields and controls:

- Nama Mahasiswa/i:** A text field containing "Yehezkiel Juandro Metta".
- NIM:** A text field containing "312210376".
- Tempat dan Tgl. Lahir:** A text field containing "Bekasi 03 Juli 2002".
- Jenis Kelamin:** Two radio buttons labeled "Laki-laki" (selected) and "Perempuan".
- Prodi:** A dropdown menu showing "Program Studi".
- No. Telp:** A text field containing "089510928290".
- Alamat:** A large text area containing "PGCI".

At the bottom of the form are four buttons: "Submit", "Update", "Delete", "Clear", and "Exit". To the right of the form is a table with the following data:

No.	Nama	NIM	TTL	Jenis K...	Prodi	No. Tel...	Alamat
1	Yehesz	312210	Bekasi	Laki - L	Progra	089510	Sarang
2	Rio	312210	Bekasi	Laki - L	Progra	089510	PGCI

In the background, another application window is partially visible, showing a rich text editor interface with tabs for "Comments", "Editing", and "Share". It also displays a toolbar with various editing tools like Find, Replace, Select, Add-Ins, etc.
